Professional Summary

Motivated Software Engineering student at Addis Ababa Science and Technology University with hands-on experience in both front-end and back-end development and I have experience in Java, web technologies, mobile programming, and database management. Passionate about solving real-world problems through innovative software solutions and eager to contribute to meaningful internship projects.

Education

Bachelor of Science in Software Engineering (Ongoing)

Addis Ababa Science and Technology University , Addis Ababa, Ethiopia

Expected Graduation: 2026

Projects

Traffic Accident Management System (Java)

- Developed a desktop application to manage and analyze traffic accident records using Java and MySQL
- Used Java Swing for UI and JDBC for database interaction

Tour and Travel Website (HTML, CSS, JavaScript, PHP)

- Designed and developed a responsive website for a travel agency
- Features include user registration, booking functionality, and interactive maps

Real-Time Chat Application (Flutter, Firebase)

- Developed a cross-platform chat application enabling real-time messaging using Flutter and Firebase.
- Implemented user authentication, message synchronization, and push notifications for seamless communication.

Technical Skills

- **Languages & Web Tech:** Java | Dart | Python | HTML | CSS | JavaScript | PHP | Firebase | API Integration
- **Tools & Platforms:** VS Code | Eclipse | Apache | MySQL | SQL | Windows | Git | GitHub | Figma | Flutter

Experience & Learning

- Participated in team-based university projects involving software design and development
- Completed SheCodes online courses and tutorials to expand knowledge in web development and Git
- Collaborated with peers on problem-solving tasks and technical challenges

Certifications
